Dear Community Partners,

Paramount Schools of Excellence's Girls IN STEM Academy is honored to be located within and supported by the Crooked Creek Cultural Campus. This partnership represents a meaningful alignment of values centered on student growth, cultural enrichment, and community collaboration.

We are deeply appreciative of the opportunity to learn and grow alongside organizations that share a commitment to educational excellence and equitable access to high-quality programming. Being part of the Crooked Creek Cultural Campus enhances our ability to provide students with engaging, real-world learning experiences that extend beyond the classroom and foster curiosity, leadership, and innovation.

The campus's collaborative environment strengthens our school community and reinforces our shared mission to serve students and families with intention and care. We look forward to continuing this partnership, contributing to the vibrancy of the campus, and working together to create opportunities that support the academic, social, and personal development of every student we serve.

Warm regards,

Chrystal Westerhaus
